state of the art
IVD and Life Science Products

33 years of excellence

About Us

HiSS Diagnostics was founded in 1989 in Freiburg, Germany. For more than 30 years we have been reliably supplying our customers with high quality IVD and life science products from selected suppliers. Our long-term partners from universities, research institutes and companies in the pharmaceutical and biotech industry confirm our qualified and professional service.

Our Partners

We cooperate with leading global manufacturers and thus offer our customers the best solutions for their workflow. A trusting and long-term cooperation with our suppliers is crucial for us to ensure best quality, professional advice and reliability.
